The Good Ones-Bruce Weinstein 2015-04-27 Employers look for two things when hiring or promoting people: knowledge and skill. They rarely, if ever, consider character. Yet character is the key to extraordinary business success. The Good Ones presents ten crucial qualities of high-character employees, qualities that enhance employee satisfaction, client relationships, and the bottom line. You'll read stories from managers and employees across the U.S. and beyond who reveal how honesty, courage, loyalty, and patience have helped their organizations maintain an edge over the competition. Each chapter is devoted to a single quality of character and ends with questions employers can use to hire and promote the Good Ones — people who are consistently honest, accountable, fair, and grateful.

Whether you're looking to bring new people into your organization or seeking a job or promotion yourself, The Good Ones will help you appreciate in practical terms why character is the missing link to excellence.

10 Essential Foods-Lalitha Thomas 2015-02-25 Well-balanced, nutritious foods are an important focus for healthy lifestyles. Thomas has narrowed her focus to 10 essential foods for optimal health and well-being. She lists them early in her book and discusses each food's reason for being a part of the list. Each food listed is significant in its ability to provide healthy dosages of either beta carotene, essential amino acids, disease-preventing phytochemicals, calcium, and vitamin B-12, among others. Thomas' writing is factual and straightforward, with a touch of humor to make the book more palatable. She provides a wealth of information on each of her chosen ten essential foods, and then provides an additional chapter on meat, poultry, and dairy. While her focus is primarily on a vegetarian lifestyle, she does give healthy possibilities for those still desiring to include these foods as part of their diet. Two other positive additions to each chapter include a "Lalitha Rants" section where she shares stories in an exasperated nature about health concerns she feels are either misdiagnosed or misinformed to the general public. Much can be learned from her tides! Also, each chapter includes kid-friendly recipes so that children can incorporate healthy eating habits at a young age. Finally, a useful bibliography lists relevant sources quoted in the book and gives suggestions for other helpful cookbooks and resources. Medical clinics, supplies, recommended products, health practices, and survival choice listings are also listed, making this book thorough and highly informative. Much talk about the importance of organic vegetables and fruits is discussed. This is a follow-up to 10 Essential Herbs, also regarded by many as a valid guidebook for health.

In this book, Dr. PAT presents a weekly experiential guide for executive leaders to raise their leadership-awareness by employing the power of consistency over time to help them achieve success. "He who knows others is wise; he who knows himself is enlightened," said Lao Tzu, a Chinese philosopher. It is this profound quote that 52 Essential Qualities and Attributes of an Organizational Leader: How to transform your leadership habits in 52 weeks sheds light on to enhance self-awareness of practical intrinsic leadership characteristics vital to a leader's performance and operational success. This book identifies leadership qualities and attributes (Q&As) and aligns them into 5 categories: 1. Command – Power Access 2. Follower Engagement – "Street" Credibility 3. Personal Growth – Experiential Confidence 4. Professional Dominance – Mission Effectiveness 5. Operational Leadership – Vision Attainment Pat lays out a practical method for a leader to intentionally think through and answer weekly provocative questions asked in a Why, Who, When, Where, and, What format. The leader then hones fundamental leadership Q&As within their circle of influence to determine "How" to effectively achieve desired success. The Leadership Gap-Lolly Daskal 2017-05-30 Do people see you as the kind of leader you want to be? Are your strongest leadership qualities getting in the way of your greatness? After decades of advising and inspiring some of the most eminent chief executives in the world, Lolly Daskal has uncovered a startling pattern: within each leader are powerful abilities that are also hidden impediments to greatness. She’s witnessed many highly driven, overarching leaders rise to prominence fueled by well-honed skill sets, only to falter when the shadow sides of the same skills emerge. Now Daskal reveals her proven system, which leaders at any level can apply to dramatically improve their results. It begins with identifying your distinctive leadership archetype and recognizing its shadows: the Rebel, driven by confidence, becomes the Imposter, plagued by self-doubt. The Explorer, fueled by intuition, becomes the Exploiter, master of manipulation. The Truth Teller, who embraces candor, becomes the Deceiver, who creates suspicion. The Hero, embodying courage, becomes the Bystander, an outright coward. The Inventor, brimming with integrity, becomes the Destroyer, who is morally corrupt. The Navigator, trusts and is trusted, becomes the Fixer, endlessly arrogant. The Knight, for whom loyalty is everything, becomes the Mercenary, who is perpetually self-serving. Using psychology, philosophy, and her own experience, Daskal offers a breakthrough perspective on leadership. She’ll take you inside some of the most cloistered boardrooms, let you in on deeply personal conversations with industry leaders, and introduce you to luminaries who’ve changed the world. Her insights will help you rethink everything you know to become the leader you truly want to be.

10 Essential Skills for Public Servants: A Handbook-Shahid Hussain Raja 2020-10-14 This is the 2nd edition of my eBook “10 Essential Skills for Public Servants: A Handbook” which I wrote in 2015 and was published by the Amazon. It got a very good response from the readers for its comprehensive treatment of the subject in an objective and easy to understand and remember the style. At the same time, I also got a lot of advice from different corners of the world after its availability in French, Spanish and Portuguese languages. It prompted me to thoroughly revise it and publish its updated version. Being a public servant is an honour and a privilege on the one hand but a great responsibility on the other. Faithful discharge of your duties demands you to possess the qualities of a Public Servant. Unfortunately, all these skills can be learned and are not inherited. It only demands wholehearted commitment and dedicated efforts to learn them. We can go through these 10 lessons in one go or these could be staggered over a period. Refer to them off and on throughout your career until they become your habits. The synergistic effect of all these skills will make you excel because the human brain has a tremendous capacity to learn new skills and habits. Firm determination through repeated practice builds the necessary pathways in a mind, needed to make them into habits.

Why Should Anyone Be Led by You?—Robert Goffee 2006-02-07 Too many companies are managed not by leaders, but by those role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who he is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don’t become great by aspiring to a list of universal character strengths to engage followers’ hearts, minds, and souls. They are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one’s unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while “conforming enough.” Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. Why Should Anyone Be Led By You? will forever change how we view, develop, and practice the art of leadership, wherever we live and work.
The Fourth Industrial Revolution - Klaus Schwab 2017

World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.
